<b>Reviewed by:</b> PW Director/City Engineer, Finance Director	<b>Approved by:</b> City Administrator	

**ACTION REQUESTED**

Motion to authorize purchase of a 2027 Volvo VHD tandem axel cab and chassis from Nuss Truck & Equipment equipped with Force America controls, a dump body and Falls plow equipment from Towmaster and purchase of associated auto greaser from Lubecore MN for a net cost of \$345,499.22 and to declare the current Truck 116 as surplus.

**REFERENCE AND BACKGROUND**

The 2026 budget includes \$400,000 for the purchase of a new plow truck. Staff request authorization to purchase a 2027 Volvo VHD tandem axle cab and chassis from Nuss Truck and Equipment of Mankato, MN outfitted with additional equipment as listed below. The final cost includes the trade-in value for the existing plow truck being replaced.

Company	Equipment	Cost
Nuss Truck & Equipment	Volvo Cab & Chassis	\$170,807.22
Towmaster	Dump Body, Snowplow Equipment, Force America Controls	\$212,342
Lubecore MN	Automatic Lubrication System	\$10,350
		\$393,499.22
Nuss Truck & Equipment	Trade-In Value for 2012 Mack	(\$48,000)
		<b>\$345,499.22</b>

The new truck will replace the City's 2012 Mack Granite hook/plow truck. Although the City operated a 2008 Sterling plow truck that is older, staff recommend replacing the 2012 Mack truck first due to ongoing reliability issues and downtime. The 2012 truck has had ongoing mechanical and electrical issues, including failures related to its first-generation diesel exhaust system and more recent computer and wiring failures. Replacement parts are difficult to obtain, resulting in increased downtime and repair costs. Over \$50,000 in repairs beyond normal maintenance have been required, including \$14,983.98 for recent computer and wiring harness repairs.

Two cab and chassis were evaluated through the state contract: Mack and Volvo. The Volvo was \$122.32 more expensive than the Mack; however, the City currently owns two Volvo trucks with positive performance history, and operators prefer the Volvo cab configuration. Based on these factors, staff recommend purchasing the Volvo.

There are two companies in Minnesota that outfit plow equipment. Due to past performance experience, staff recommend outfitting the truck with Towmaster equipment. Towmaster has outfitted all but one of the plows and has the strongest results. Installation of the plow equipment is anticipated in 2027.

Finally, staff recommend utilizing the Lubecore auto-greaser to maintain fleet consistency and prevent having to stock different styles of grease cartridges.

- I. **Budget Impact:** The 2026 Central Equipment Fund budget includes \$400,000 for the replacement of one plow truck. The Towmaster plow equipment will not be installed until 2027, therefore the 2027 Central Equipment Fund budget will reflect that cost.
- II. **Staff Workload Impact:** Improve efficiency with time, vehicle failure and safety.
- III. **Comprehensive Plan Impact:** N/A

**STAFF RECOMMENDED ACTION**

Staff recommend purchase of the 2027 Volvo and associated equipment as noted and declaring the Truck 116 2012 Mack as surplus.
